

CHEMICALS USED 235LL		
1,2-dimethoxyethane		<b>Chemicals Continued</b>
1-bromobutane		p-chlorotoluene
1-butene		p-cymene
1-chlorobutane		phosphoric acid
2-bromobutane		potassium permanganate
2-bromobutanepotassium hydroxide		salicylic acid
2-butenes		sec-butyl alcohol
2-chlorobutane		silver nitrate
2-methoxyethylacetate		sodium bicarbonate
2-methyl-1-propanol (iso-butyl alcohol)		sodium carbonate
2-methyl-2-butanol		sodium chloride
2-propanol		sodium iodide
4-heptanone		succinic acid
4-methylcyclohexanol		sulfuric acid
4-methylcyclohexene		t-amyl alcohol
acetaminophen		t-butyl chloride
acetic acid		tea bag
acetic anhydride		t-pentyl chloride
acetone		tylenol
acetylsalicylic acid		
alumina		
aspirin		
benzophenone		
benzpinacol		
benzyl chloride		
bromine		
bromobenzene		
bromocyclohexane		
bromocyclopentane		
caffeine		
calcium chloride		
crotyl chloride		
cyclohexane		
dichloromethane		
diethyl ethylmalonate		
diethyl fumarate-trans		
diethyl maleate - cis		
D-xylose		
ethanol		
ethyl acetate		
ethyl buterate		
ethylene dichloride		
ferric chloride		
hydrochloric acid		
ibuprofen		
iodine		
isopentyl acetate		
isopentyl alcohol (isoamyl)		
isopropyl alcohol		
magnesium sulfate		
malonic acid		
methanol		
methylene chloride		
methylstyrene		
monobromobenzene		
m-xylene		
naphthalene
