

SOCIAL PSYCHOLOGY
STUDY GUIDE
PREJUDICE

Use any three for your paper for this chapter!

1. Explain and give personal examples of the difference between prejudice, discrimination and stereotypes
2. Explain and give personal examples of three ways people learn to become prejudice. **Be sure to relate your learning examples to learning prejudice.**
3. Choose three theories relating to the development of prejudice: realistic group conflict, relative deprivation (two types), sense of group position and social identity theory. For each theory, explain the theory and give a personal example.
4. Explain the six criteria for contact theory to be effective in reducing prejudice and relate each of the six criteria to a personal example of you attempting to decrease your own prejudice.
5. Explain the three steps in cognitive restructuring as they relate to reducing prejudice and relate each step to a personal example of you attempting to decrease prejudice.
6. Explain the difference between the three forms of modern racism and give a personal example of each.
