

Sustainability Walk

DID YOU **know**?

- All new construction on campus is built to the U.S. Green Building Council's LEED-Silver standard or equivalent for sustainable design. These buildings are resource efficient, using less water and energy so as to reduce greenhouse gas (GHG) emissions.
 - LEED-Silver Equivalent
- Stay hydrated. Skip the bottled water and refill instead. Water bottle fill stations are available in several buildings on campus providing cold, filtered water at no cost. Support Zero Waste by using a refillable water bottle.
 - Water Bottle Fill Stations
- Xeriscape landscaping refers to water conservation through creative landscaping. Native plants are used to reduce maintenance and the need for supplements.
