This Handbook prescribes standards of conduct for students enrolled in the MaricopaNursing Program. The standards are in addition to those detailed under Maricopa Community College’s Policies and Administrative Regulations. Violation of any such standard may serve as grounds for program dismissal, suspension, or other discipline. The Nursing Leadership Council (NLC) reserves the right to make program changes as needed, and to change without previous notice any information requirements and regulations published in this document.

The Maricopa County Community College District (MCCCD) is an EEO/AA institution and an equal opportunity employer of protected veterans and individuals with disabilities. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, age, or national origin. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of the District.

The Maricopa County Community College District does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs or activities. For Title IX/504 concerns, call the following number to reach the appointed coordinator: (480) 731-8499. For additional information, as well as a listing of all coordinators within the Maricopa College system, <http://www.maricopa.edu/non-discrimination>

I. PROGRAM INFORMATION

1. DESCRIPTION

MaricopaNursing is a consortium of nursing programs at eight of the Maricopa Community Colleges. Chandler-Gilbert Community College, Estrella Mountain Community College, GateWay Community College, Glendale Community College, Mesa Community College, Paradise Valley Community College, Phoenix College, and Scottsdale Community College are the colleges within the MaricopaNursing consortium. In 2010, the Maricopa Community College District Nursing Program became the consortium of MaricopaNursing. The consortium shares a common outcome-based integrated curriculum culminating in an Associate of Applied Science degree in nursing; shared agreements for academic standards including admission criteria, progress and graduation standards; shared agreements for development and implementation of student procedures and guidelines as delineated in the Nursing Student Handbook; and a shared governance model which supports the Nursing Leadership Council as the responsible party for decisions regarding nursing at Maricopa. Clinical experiences are provided in a variety of healthcare settings. Completion of the nursing courses and general education degree requirements and subsequent posting of the degree provides eligibility for students to apply for licensure as registered nurses. Licensure requirements are the exclusive responsibility of the Arizona State Board of Nursing.

Each MaricopaNursing college is nationally accredited by the Accreditation Commission for Education in Nursing (ACEN) at 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326. State approval for the Nursing Programs is provided by the Arizona State Board of Nursing (AZBN) at 4747 N. 7th St. Suite 200, Phoenix, AZ 85014, 602.771.7800.

2. OCCUPATIONAL INFORMATION

Graduates receiving an Associate in Applied Science in Nursing degree are eligible to apply for licensure as a Registered Nurse (RN). Completing the MaricopaNursing program does not guarantee licensure. The RN is educated as a generalist who delivers health care to clients and family groups and has competencies related to the art and science of nursing. RNs may be employed in a variety of acute, long-term, and community-based health care settings. They practice within their scope and follow professional standards when caring for clients and families across the life span. The degree provides the graduate with a foundation for articulation into the University setting.

3. ELIGIBILITY FOR LICENSURE

Students completing graduation requirements for the Associate in Applied Science degree in Nursing are eligible to apply for licensure as registered nurses through the AZBN. Licensure fees and requirements are determined by and are the sole responsibility of the AZBN. Approximate cost of application fees, testing fees, and fingerprinting is \$550.00.

Felony Bar: If a person has been convicted of a felony, the person is not eligible to apply for licensure or certification with the Arizona State Board of Nursing until 3 years after the “absolute discharge” of the sentence. “Absolute discharge from the sentence” means completion of any sentence, including imprisonment, probation, parole, community supervision or any form of court supervision. This also includes payment of all restitution, fines, fees, etc. If the conviction is reduced to a misdemeanor, or set aside, dismissed, etc., the 3-year bar may no longer be applicable, but the Board may still consider the conduct involved, and the person’s application will be considered on a “case by case” basis.

Applicants for licensure in Arizona must provide evidence of citizenship or nationality. Licensing fees and requirements are determined by and are the sole responsibility of the State Boards of Nursing. For all questions about eligibility for licensure, contact the Arizona State Board of Nursing <http://www.azbn.gov> or 602-771-7800.

4. VISION

MaricopaNursing is committed to empowering novice nurses with knowledge, skills and attitudes to assume nursing roles across the healthcare system.

5. MISSION

Congruent with the mission of Maricopa Community Colleges, MaricopaNursing provides accessible, affordable quality nursing education that prepares graduates to serve in diverse communities.

6. PHILOSOPHY

MaricopaNursing is aligned with Nurse of the Future Competencies: Patient-Centered Care, Professionalism, Leadership, Systems-Based Practice, Informatics and Technology, Communication, Teamwork and Collaboration, Safety, Quality Improvement, and Evidence-Based Practice. Demonstration of the competencies signifies preparation for successful transition into nursing practice and further professional development. MaricopaNursing has adopted a constructivist framework which guides delivery of educational experiences, acknowledging the uniqueness and complexity of the individual learner and the importance of active learning and personal engagement in the process of learning.

Massachusetts Department of Higher Education Nurse of the Future Competencies Committee. (2007). Nurse of the Future Nursing Core Competencies, version 2. Department of Higher Education: Boston, Massachusetts. Retrieved from <http://www.mass.edu/currentinit/documents/nursingcorecompetencies.pdf>

II. PROGRAM COMPETENCIES

1. Patient-Centered Care: Provide advocacy and individualized care for diverse populations. (NUR152, NUR172, NUR252, NUR283)
2. Professionalism: Demonstrate accountability for legal and ethical behaviors that reflect standards of professional nursing practice. (NUR152, NUR172, NUR252, NUR283)
3. Leadership: Coordinate nursing care for multiple patients in collaboration with health team members for the acquisition/achievement of shared outcomes. (NUR152, NUR172, NUR252, NUR283)
4. Systems-Based Practice: Discuss healthcare micro and macro systems and their impact on patient care. (NUR152, NUR172, NUR252, NUR283)
5. Informatics and Technology: Integrate technology to provide safe quality care and improve patient outcomes, managing information confidentially and effectively. (NUR152, NUR172, NUR252, NUR283)
6. Communication: Demonstrate effective communication skills while fostering mutual respect and shared decision making with patients, families and colleagues. (NUR152, NUR172, NUR252, NUR283)
7. Teamwork and Collaboration: Function effectively within interdisciplinary teams fostering open communication, shared decision-making and team development. (NUR152, NUR172, NUR252, NUR283)
8. Safety: Provide safe, quality care while minimizing risk of harm to patients and providers. (NUR152, NUR172, NUR252, NUR283)
9. Quality Improvement: Demonstrate accountability for quality improvement of personal performance, patient care and health care systems. (NUR152, NUR172, NUR252, NUR283)
10. Evidence-Based Practice: Utilize evidence-based practice to meet individualized needs across the healthcare continuum. (NUR152, NUR172, NUR252, NUR283)

III. PROGRAM OF STUDY – ADMISSION BEGINNING JULY 2015

General Education Prerequisites		BLOCK 1	BLOCK 2	BLOCK 3	BLOCK 4
MAT140, 141, or 142 College Math 3-5 Credits	A C C E P T A N C E	NUR152	NUR172	NUR252	NUR283
BIO156/181 or 1 yr. HS BIO Biology 201 0-4 Credits		Nursing Theory & Science I 9 Credits	Nursing Theory & Science II 9 Credits	Nursing Theory & Science III 9 Credits	Nursing Theory & Science IV 9 Credits
CHM130/130LL or 1 yr. HS CHM Chemistry 0-4 Credits		CO-REQUISITE COURSES			
ENG 101 or 107 First Year Composition 3 Credits		BIO202 Human Anatomy & Physiology II (Recommended Pre- req to NUR172) 4 Credits	PSY101 Introduction to Psychology (Recommended Pre-req to NUR252) 3 Credits	BIO205 Microbiology (Recommended Pre- req to NUR283) 4 Credits	HUM--- Humanities Elective 2 Credits
			CRE101 (Recommended Pre-req) Critical & Evaluative Reading 0-3 Credits		ENG102 or 108 First Year Composition 3 Credits
		TOTAL 13 Credits	TOTAL 12-15 Credits	TOTAL 13 Credits	TOTAL 14 Credits
Prerequisite Credits = 10-20		Total Nursing Core Credits = 36 General Education Co-requisite Credits = 16-19 Total Credits for AAS in Nursing Degree = 62-75			

IV. GENERAL INFORMATION

- ❖ Academic advisement is available at each campus.
- ❖ The nursing courses are sequential and the successful completion of each course is a prerequisite for admission to the next block.
- ❖ It is the responsibility of the student to complete all pre- and co-requisite courses prior to graduation.

Attendance Guidelines:

- Students must be registered for the class in order to attend.
- It is the responsibility of the student to notify the Office of Admissions and Records for withdrawals to discontinue studies in a course or at the college.
- Students will be held to Maricopa County Community College District (MCCCD) policies and procedures related to attendance (see College Catalog, Administrative Regulations, 2.3.2). Attendance requirements are determined by the course instructor. Students who do not meet the

attendance requirements as determined by the course instructor may be withdrawn. Students who fail to attend the first scheduled class meeting, or who fail to contact the instructor regarding absence before the first scheduled class meeting may, at the discretion of the instructor, be withdrawn.

- Nursing classes prepare students for safe client care and faculty expect students to attend each class, laboratory, and clinical session to develop the theoretical and practice components of the professional nursing role. It is the responsibility of the student to notify the instructor prior to absence or anticipated late arrival. Laboratory and clinical hours are often not possible to make up and students must not expect make-up time to be available. When an absence results in the inability of the student to develop and demonstrate clinical practice objectives and meet the required hours of the course necessary for credit, the student will not receive a passing grade in the course.
- In the event an absence is necessary due to serious illness of the student or family member, the absence policy of the nursing program includes but is not limited to:
 - Theory/didactic sections: Students are expected to attend all classes necessary to meet competencies of the course. If an absence occurs the student is responsible to obtain class notes and assignments. Students may not arrive late or leave early as these behaviors disrupt the learning environment. A faculty member has the right to deny entrance if a student is late.
 - Laboratory Sessions: Students are expected to attend all laboratory sessions. Makeup time for skills taught in lab may not be possible. Students will be graded on successful demonstration of skills/procedures and are responsible for reviewing skills prior to care.
 - Clinical Sessions: Students are expected to attend all clinical sessions necessary to meet the competencies of the course as determined by the instructor(s).
 - Clinical hours include pre-clinical laboratory practice, pre- and post-conferences, all scheduled clinical days, alternative clinical learning activities, and simulation.
 - All students must complete the online and onsite clinical orientation requirements prior to all clinical rotations. Any student who fails to complete the requirements or is absent on a day of orientation without prior instructor approval may not continue in the rotation.
 - Late arrival or leaving early from the clinical experience may result in disciplinary action and place the student at risk for failing to achieve the course competencies.
 - Clinical experiences scheduled in psychiatric/mental health, obstetrical, and pediatric rotations are assigned to meet the minimum course requirements.
 - In case of serious illness or emergency situations, a student may find an absence unavoidable. When an absence occurs, the student must notify the clinical instructor in advance of the clinical hours. Any absence can jeopardize successful achievement of course competencies.
 - The nursing program does not routinely provide “make-up” clinical hours.
- Special Circumstances: There are no provisions for an “excused absence” outside the following list as described in the college policies (see college catalog). All requests for an excused absence must meet the college policy and the request is to be sent directly to the nursing department director and the primary course instructor.
- ❖ Official Absences, as described in the college catalog, are those that occur when students are involved in an official activity of the college. Students must present the official absence verification form to the instructor before the absence. Prior arrangements must be made with each instructor for makeup work. If an absence is prolonged and too much content is missed an incomplete may need to be given. Appropriate documentation is required.
- ❖ Religious Holidays - The student must provide a written statement including the date(s) of the holiday. (Requirements defined in the college catalog.)

V. CHANNELS OF COMMUNICATION

There is an expectation of mutual respect between faculty and students. If an issue should arise, the student schedules a meeting to discuss the issue with the faculty member. Issues are often resolved by direct communication between the faculty member and the student.

Nursing students and faculty should communicate openly to promote professional conduct and to collaboratively resolve problems. A communication chain of command provides a process whereby students have an opportunity to communicate concerns to the person(s) involved. It also provides the instructor the opportunity to be aware of the student's concern and to work with the student to find a mutually agreeable solution, as most issues are resolved at this level. If the issue is not resolved after communication at the first level, students are expected to follow the appropriate communication chain of command outlined below.

1. Clinical instructor/faculty (for clinical issues)
2. Course instructor/faculty (for classroom issues or if clinical issue remains unresolved after speaking with clinical instructor)
3. Block lead/block coordinator
4. Department chair
5. Dean of Instruction/Dean of Career & Technical Education

Instructional Grievance Process (from the Maricopa Community Colleges Common Pages)

<http://www.maricopa.edu/publicstewardship/governance/adminregs/appendices/S-6.php>

A student who feels that he/she has been treated unfairly or unjustly by a faculty member (full-time or part-time) with regard to an academic process such as grading, testing or assignments, shall discuss the issue first with the faculty member involved. This conference shall be requested by the student within fifteen (15) working days from the time the student knew or reasonably should have known about the unfair or unjust treatment.

Steps for students to follow:

1. If, within ten (10) working days of the request for the conference with faculty member, the problem is not resolved or the faculty member has been unable to meet with the student, the student may continue the process by filing a written grievance with the Department/Division Chairperson and appropriate administrative officer at the college/center. This written grievance must be filed within ten working days following the previous deadline. The written grievance will be given to the faculty member five days before any official meetings are convened.
2. Upon receipt of a written grievance, the Department/Division Chair or appropriate college administrative officer will work with the parties in an attempt to resolve the conflict. The faculty may ask the College Faculty Senate President be in attendance. Every attempt will be made to maintain confidentiality during this process. A faculty member will not be required to respond to a grievance which is not in writing and which, when appropriate, did not have specific documentation including dates, times, materials, etc. The written grievance will be made available to the faculty member.
3. If the grievance is not resolved at this level within ten working days, the student should forward to the vice president of academic affairs or designee, a copy of the original written grievance with an explanation regarding action taken at each prior level. The dean of instruction or appropriate college/center administrative officer will meet with the student, faculty member, the College Faculty Senate President if requested by the faculty member, and Department/Division Chair and attempt to resolve the issues. This level will be the final step in any grievance process regarding grades.

4. If the grievance, other than those concerning grades, is not resolved by the vice president of academic affairs or designee, it may be forwarded in writing by the student to the college president for final resolution. The college president or designee will issue a final written determination in the process.
5. Instructional grievances are resolved at the college level. The district office is not an avenue of appeal for the instructional grievance process.

Note: The grievance process for grades must be initiated no later than sixty (60) calendar days from the date the grade was issued.

VI. STUDENT REPRESENTATION

Students are provided opportunities to offer input on decisions including admission standards, curriculum, student services, and the teaching/learning process. Students are invited to become active in student government and nursing student associations and organizations, both on campus and in the community.

The following list includes various ways students can become involved in governance:

- ❖ Complete End of Block, End of Program, Student Forum, and Alumni surveys.
- ❖ Provide honest and fair feedback when asked to complete instructor and course evaluations.
- ❖ Participate in Student Nurse Association (SNA) activities.
- ❖ Volunteer for committee participation by serving on the committees available at the college. Examples of these committees could include but are not limited to: Curriculum, Community Advisory, Student Conduct and/or Student Affairs Committees.
- ❖ Provide input when your peers are representing your issues at committee meetings and student forums.

VII. PROFESSIONAL APPEARANCE

MaricopaNursing students represent their college nursing program to the public, including patients, agency staff, and other members of the healthcare team; therefore, professional behavior and attire is expected of all nursing students at all times. The MaricopaNursing student dress code standards promote professional appearance and attire to promote safety, improve patient/nurse communication, and to foster a trusting, therapeutic nurse/patient relationship.

The following guidelines are mandatory for students to remain in compliance with the dress code:

- ❖ Students are expected to present themselves in a professional manner and remain in compliance with the dress code guidelines at all times while enrolled in the nursing program.
- ❖ In all cases, the student must be in compliance with the professional appearance policy of the clinical agency. No accommodation will be made to change the location of clinical experiences. Inability to place a student in a clinical facility due to noncompliance with the professional appearance policies may result in a failing course in the course and/or dismissal from the nursing program.
- ❖ Uniforms should fit comfortably for unimpeded movement without compromising safety or professional image. The uniform should fit so that when the student bends forward, the bottom hem of the top covers the pants' waistband in the back. Visible chest cleavage is not permitted.
- ❖ Pant hems should be tailored as to not drag on the floor when walking or standing.
- ❖ Students may wear a plain white or black t-shirt under the uniform. No other colors are permitted. The t-shirt may be sleeveless, short or long-sleeve. Turtlenecks are permitted.
- ❖ The official student uniform jacket or a plain white lab coat may be worn over the uniform. Sweaters, hoodies, or similar apparel are not permitted in the clinical setting.

- ❖ Picture ID badge must be worn at all times above the waist with the picture facing forward in the clinical agency. The ID badge should be worn on the upper right shoulder area of the uniform.
- ❖ Uniform-style shoes are to be white or black with low heels. No open toes, backless shoes or sandals. White or black clogs (no other colors are permitted) with a back strap are permitted. All shoes must have a non-porous top.
- ❖ The uniform must be clean and wrinkle-free. Undergarments must be worn at all times and cannot be visible.
- ❖ The only jewelry that may be worn with the uniform is a wedding/engagement ring, small post earrings in earlobes only, and a wristwatch. No other body piercing jewelry is allowed. If necessary, a small skin toned bandage is permitted to cover a visible piercing that cannot be removed. Necklaces must be kept under clothing and not visible. In certain clinical rotations, it may be advisable to not wear any jewelry.
- ❖ Earlobe gauges must be filled or covered in flesh tones.
- ❖ No objects of any type may be worn in the tongue.
- ❖ Tattoos must be covered if possible unless they are on the arm below the bottom of the uniform sleeve and contain no inappropriate or offensive content. Agency policies must be followed.
- ❖ Hair must be clean, combed, natural color (not pink, blue, etc.), worn up/off the collar, and secured back from the face so it does not fall forward while in uniform to meet health and safety standards. Unconventional or radical hair styles (such as spikes or “Mohawk” styles) are not permissible in lab or clinical settings. Closely trimmed beards, sideburns, and mustaches are permitted, but must meet facility policy for client safety. No hair adornments may be worn in the hair to the clinical/lab setting (i.e. artificial flowers, scarves, or jewels) unless approved due to cultural/religious reasons.
- ❖ Makeup should be minimal and in good taste.
- ❖ No chewing tobacco or gum while in the nursing laboratory or in the clinical setting. Chewing tobacco is not allowed in class, laboratory, or clinical setting.
- ❖ Students will maintain personal hygiene, including oral care. Students will be free of offensive body odor and/or cigarette odor. No cologne, after-shave, scented lotions, and/or perfumes are permitted.
- ❖ Fingernails must be clean, short with clear, neutral or pale polish, if any. Artificial nails, gel polish, nail wraps, or extenders are not permitted in the clinical setting.

Unacceptable Attire in the Clinical and/or Laboratory Setting: NO thin or see-through clothes, halter tops, tank tops, short-shorts, or mini dresses. When in the clinical setting, students are required to wear the complete MaricopaNursing uniform with name badge as outlined above unless otherwise requested by the clinical setting.

VIII. INFORMATION TECHNOLOGY

Nursing students will be required to use online resources to access content and will need access to a computer and network connection to view various recommended and required site content.

CRITERIA FOR USE OF MOBILE DEVICE DURING CLINICAL AND CLASSROOM ROTATIONS

Mobile devices can be a valuable tool for healthcare education when used appropriately. The following guidelines apply:

- ❖ Professional behavior and proper technology etiquette should be observed at all times when using cell phones, iPads, iPods, mobile devices, laptops or other electronic devices.
- ❖ These may be used only when authorized by faculty and for clinical activities, not personal use.
- ❖ Cell phones and all mobile devices must be on “silent” mode or turned off during class, lab, and clinical experiences.

- ❖ No photos may be taken by students in the clinical agency or lab environments. The exception to taking photos or videos in the laboratory environment is when it is a course assignment.
- ❖ No personal phone conversations or texting allowed at any time while in lab, class, or clinical. A clinical probation will be given for the first violation of using the mobile device for socializing during clinical time. A second violation may result in removal from the clinical setting.
- ❖ When accessing information on smartphones, students are expected to have the equipment turned off if agency policy requires it and go to an area designated for cell phone use when accessing information on a mobile device.
- ❖ Be respectful to the client at all times and ensure that your entire attention is focused on the client when you are in the client's room. If you are using any type of mobile device at the bedside be sure to apologize for the interruption in care and explain how the use of the technology will assist with care.
- ❖ Faculty or hospital staff may ask to see what programs you are using at any time. Use of facility computers for personal use is prohibited.
- ❖ You must protect the confidentiality of patient information at all times in accordance with HIPAA. Students may not take any photographs of clients or client records, nor print or make copies of client records.
- ❖ Students who violate patient privacy with the mobile device will be subject to HIPAA infractions of the clinical agency and may be subject to disciplinary action.
- ❖ Just as medical equipment may act as a reservoir for microorganisms and contribute to the transfer of pathogens, so may mobile devices. Be sure to disinfect/decontaminate them as needed.
- ❖ Social networking sites: When contributing to a social networking site, it is important to remember that everyone can see and read what is placed on the site even if "privacy" options are selected. Keep your interactions professional and err on the conservative side when placing written communication or posting pictures. Always remember that your online presence reflects you as a professional. Be aware that your actions captured via images, posts, or comments can reflect on you and many recruiters now routinely search the social networking venues when considering people for a new hire. **It is never appropriate to post photos or information about a patient. Social network postings can be subject to disciplinary action from the nursing program.**
- ❖ For additional information on how to use social media without professional or personal repercussions, visit: <https://www.ncsbn.org/347.htm>

IX. PROGRESSION AND RETENTION IN THE NURSING PROGRAM

1. Methods of Evaluation - Grading Guidelines

A. Nursing courses in the Program of Study (core courses) utilize the following grading scale:

92 - 100	=	A
84 - 91	=	B
76 - 83	=	C
68 - 75	=	D
67 and below	=	F

Nursing Science Final Clinical Grade

A Satisfactory grade on each KSA Clinical Competency and satisfactorily meeting all the requirements of the Learning Contract are required to obtain a passing Summative Evaluation and pass the course.

B. To receive a passing letter grade (C or better) the student must:

- Achieve an average score of 76% or greater on proctored examinations. No rounding will occur with the calculation of the final course grade to achieve a passing score of 76%.
- Obtain a satisfactory rating on each laboratory practicum.
- It is expected that the student will demonstrate progress throughout the semester obtaining a satisfactory performance in all clinical competencies by the final day of the clinical or simulation experience.
- A Satisfactory grade on each KSA Clinical Competency and satisfactorily meeting all the requirements of the Learning Contract are required to obtain a passing Summative Evaluation and pass the course.
- Achieve an average score of 76% or greater of all course points.
- Nursing courses are not graded as a “P” (pass) or “Z” (no credit)
- Meet all course requirements as described in the course syllabus.
- Nursing courses are not graded on a curve; letter grades are earned without regard to scores of other students.
- Students absent on the day of an exam are responsible for scheduling/completing the exam within five (5) school days of the original exam date. The student must notify the instructor prior to the exam to schedule the makeup exam. Only one (1) exam may be made up and the makeup exam may be in alternative format including essay questions.
- No test or remediation examinations can be retaken or given to improve a score.
- Nursing courses will include a comprehensive final exam of all essential nursing theory and lab/clinical content appropriate to determine student achievement of course competencies.
- Failing a clinical component of a course will result in a grade of “D” or “F” for the entire course.
- Exams are available for review based on instructor availability and syllabus guidelines.
- Under all circumstances, the faculty facilitating the course will assign the letter grade a student has earned.
- A student may be dismissed from the program and receive a failing grade in the course based on the inability to place the student in a clinical facility.
- Due Process - If a student has his/her/their continuation in a class or the academic program called into question based upon a positive drug test, a failed background check, or a code of conduct violation that may prevent the program’s ability to place the student at a clinical site, the student will be afforded due process prior to being removed from the class/program.

2. Exit Testing and Remediation

Near the end of each Block, the student will take a computerized, standardized examination. The score is included as proctored points. The primary purpose of these examinations is to assess the student’s achievement of nursing knowledge at his/her current level. The assessment will identify specific, individualized remediation content that can contribute to the student’s success in the nursing program.

Immediately after the assessment each student receives an overview with the raw test score, conversion score, and comparison scores. After completing the exam, each student will receive an email from Elsevier Evolve with individualized remediation and suggested study materials.

3. Progression

To qualify for enrollment through the subsequent Blocks of the nursing program the following must be achieved:

1. Pass all components (theory and clinical must always be taken concurrently) of the current nursing course.
2. Maintain compliance with the Health and Safety requirements of the nursing program throughout the semester of enrollment.
3. Meet all deadlines for clinical facility requirements (online databases) by the due dates.

4. Graduation Requirements

1. Block 4 students are required to complete an application for the degree through the Admissions and Records department prior to the date listed in the college catalog.
2. Students must meet the general education course and nursing course requirements for the Associate in Applied Science (AAS) degree in Nursing. The AAS degree is awarded according to the policies, procedures, and requirements described in the college catalog.
3. In order for the electronic testing authorization to be sent to the State Board of Nursing by the Admissions and Records office, the AAS degree must be posted on the student's transcript.
4. Eligibility to take the National Council Licensure Examination - Registered Nurse (NCLEX-RN): Students must have a high school diploma or GED certificate and proof of graduation from an accredited/approved nursing program. If high school transcripts are not available, the student may be able to sign a declaration statement (check with the Admissions and Records office if needed.)
5. Completion of the nursing program and graduation from a college does not guarantee a passing score on the licensing exam. Application for NCLEX-RN is the sole responsibility of the student.

5. Disciplinary (and/or Investigative) Actions of Regulatory Boards

1. All students enrolled in nursing courses who are certified and/or licensed as a Nurse Assistant or as a Practical Nurse must remain in good standing with the Board of Nursing. This includes students with certification and/or licensure from allied health regulatory boards.
2. Students receiving any investigative or disciplinary actions against their certificate or license must notify the Nursing Director within five (5) school days. Failure to remain in good standing may result in restriction or withdrawal from nursing courses.
3. Once admitted, any student who has the fingerprint clearance card suspended or revoked while enrolled in the program will not be permitted to continue.

6. Transfer within MaricopaNursing

A student in good standing who successfully completes nursing courses may transfer between campuses on a space available basis by following the steps listed below:

1. Obtain the transfer form from the Division/Department office or website and complete all parts of the transfer form.
2. Inform and obtain signature from the Nursing Director/designee of the home campus.
3. Send the form (via email, or in person) to the Nursing Director of receiving campus.
4. A transfer is confirmed upon student acceptance. It is the responsibility of the student to notify both nursing departments in a timely manner if a transfer is no longer desired. Placement is not guaranteed until the student is officially registered.

7. Readmission Guidelines

1. A student exiting the nursing program for any reason must complete an Exit Interview Form with the instructor, Director or designee to be eligible for readmission. The Exit Interview Form must include all admission and exit test scores.
2. No student is guaranteed readmission. A student may be granted ONE readmission if there is space available and the student has had no previous readmissions. If the student wishes to attend another MaricopaNursing campus the student needs to provide the Director of the nursing program at the desired site a copy of his/her Exit Interview Form and request readmission.
3. A readmission may be granted for the next available traditional semester, not to exceed two traditional semesters. The final determination for readmission is made by the Nursing Director.
4. All readmissions are subject to space availability and approval of the Nursing Director. Factors which may be considered for readmission include but are not limited to final nursing course grades, HESI scores, and course/clinical evaluations.
5. The Nursing Director and/or designee may specify certain required or recommended criteria for readmission. Criteria may include completion of academic courses, proof of work experience, remediation, counseling, or other activities to promote success of the student.
6. The Nursing Director and/or the Nursing Leadership Council reserves the right to deny a request for readmission if the student was dismissed for issues relating to academic integrity, unsafe patient care, inappropriate conduct, or dismissal from a college or clinical site.
7. The Nursing Director and/or the Nursing Leadership Council reserves the right to approve an admission or readmission for a student in good standing who has to defer or withdraw for an unexpected event such as illness/injury, military deployment, or other unforeseen events.

8. Block-specific procedures for readmission – No readmission is guaranteed

All students must meet current Health & Safety requirements. If a student has had two withdrawals/failures or any combination of the two from the nursing program for any reason, the student is considered to be out of the nursing program.

1. **Block 1:** A student exiting for a withdrawal or a failure must file an application for new student admission and meet current admission requirements. If space is available, the Director may readmit a block 1 student from the previous block based on Director's discretion.
2. **Block 2:** A student exiting for a withdrawal or a failure may request readmission into the next available traditional semester. The maximum amount of time a student may be out of the program is not to exceed two semesters. If more than two traditional semesters, the student must apply as a new student into Block 1, meet the current admission criteria, and repeat all nursing courses.
3. **Block 3:** A student exiting for a withdrawal or a failure may request readmission into the next available traditional semester. If out longer than two semesters or if the student has two exits (failures or withdrawals) in the program, the student must apply as advanced placement and meet current advanced placement admission requirements.
4. **Block 4:** A student exiting for a withdrawal or failure may request readmission into the next available semester. If out longer than two semesters or if the student has two exits (failures or withdrawals) in the program, the student must apply as advanced placement into block 2 or 3 and meet current admission requirements.

NOTE: Advanced placement applications are valid for two years from the date of application. Following the two year period, the student must update his/her application meeting all current requirements to be considered for placement. If the student does not elect to update/reapply for advanced placement, the

application will be removed from the database and the student will be notified via the email address on file. Following two failures/exits from the program, a student will need to either apply as a new student to Block 1 or, if Blocks 1 and 2 have been successfully completed, the student will need to complete NUR191 and successfully complete the NCLEX-PN and obtain his/her LPN license. Application may then be made to Block 3 of the nursing program.

X. HEALTH AND SAFETY GUIDELINES

1. Essential Skills and Functional Abilities

Nursing students must be able to perform a variety of patient care activities without restrictions in the laboratory and clinical settings. At a minimum, students will be required to lift patients, stand for several hours at a time and perform fine motor skills with dexterity. The clinical nursing experience also places students under considerable mental and emotional stress as they assume responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions to remain in the program. Individuals should give careful consideration to the mental and physical demands of the program as described in detail under "Essential Skills and Functional Abilities" prior to making application.

2. Health and Safety Requirements*

1. All students entering nursing courses must meet all Health and Safety requirements to maintain enrollment in the program. Students who do not meet all health and safety requirements by the required date will not be able to continue in the clinical component of the course.
2. Students unable or unwilling to provide documentation of compliance with the Health and Safety Requirements will not be registered or allowed to continue in nursing courses. A physician note or other documentation will not negate the need to complete all health and safety documentation requirements due to the need to protect patient safety.
3. An immunization variance is available due to religious or medical reasons. The Nursing Director must be informed of the need for an immunization variance prior to the student's acceptance into the program. Every attempt will be made to place the student in clinical rotations to meet the course competencies; however, if a clinical placement cannot be obtained the student may be given an incomplete, may not move forward with his/her cohort, and, in some circumstances, may not be able to complete the program. A confirmation of TB status is required, and verification of immune status by proof of titers is mandatory. For a medical variance, documentation from a licensed health care provider is required. Some facilities require an influenza vaccination and a waiver is not accepted.
4. In circumstances of student illness, injury, or other health limitations, both the clinical agency and the college health policies must be upheld. The faculty member and/or clinical agency representative will determine a student's ability to provide nursing care, regardless of a physician's approval for return. Under no circumstance will a student with restrictions (such as non-weight bearing, in a cast, orthopedic boot, or other appliances or restrictions) be allowed to participate in clinical activities.
5. A Level One Fingerprint Clearance Card (FCC) is required for enrollment in nursing courses. Students unable to maintain a current FCC will be withdrawn from nursing courses. If the FCC is suspended or revoked during the nursing program, the student has the duty to report this to the Nursing Director within five (5) business days and may not continue in the program until the FCC is reinstated. The student must be able to show his or her FCC during the clinical rotations upon request.

** Health and Safety requirements are subject to change without notice depending on clinical agency requirements.*

4. Disabilities

1. Students are expected to participate fully in activities required by the program. See the Essential Skills and Functional Abilities for Nursing Students.
2. Any student having a temporary medical condition inhibiting/restricting their activities must supply a written explanation from their physician. Should a student become unable to participate without restrictions in the program's activities, he/she may be given an incomplete or withdrawn.
3. Should the student require any type of special accommodation, the student must notify the Disability Services and Resources (DSR) Office. The DSR office should be contacted by the student before the first class meeting. Special accommodations for testing will be given only with appropriate documentation of special needs.
4. Official documentation of disability is required for any accommodation including but not limited to additional time, alternative environments, or reference materials.

Essential Functional Abilities for Nursing Faculty and Students

MaricopaNursing students must be able to meet essential functional abilities in order to maintain enrollment in a nursing program. MCCC health programs are committed to nondiscriminatory practices and do not discriminate against qualified applicants with a documented disability. If a student believes that he/she cannot meet the essential functional abilities without accommodations, the nursing program must determine, on an individual basis, whether accommodation can be made. The ultimate determination regarding reasonable accommodations will be made by the Nursing Department, in conjunction with Disability Resources.

Essential Functional Abilities	Standard	Examples of Required Activities
Character	Demonstrate integrity, accountability, responsibility, empathy, truthfulness, and care for others. Demonstrate emotional intelligence necessary to recognize and understand emotions of self and others. Demonstrate adherence to ANA Code of Ethics for Nurses	Relates to others with respect, honesty, civility, integrity, and nondiscrimination. Capacity to demonstrate ethical behavior, including adherence to the professional nursing and student honor codes. Takes responsibility and accountability for own actions. Recognition of and respect for diversity.
Motor Abilities	Mobility, dexterity, strength, and endurance sufficient to provide safe patient care.	Assist with procedures, treatments, and other patient care activities to provide safe, effective patient care such as assisting with ambulation, and turning/lifting clients, and administering lifesaving measures. Practice in a safe manner to provide appropriate patient care with procedures, treatments, and medication administration.
Perceptual/ Sensory Abilities	Ability to see, hear, touch, smell, and distinguish colors. Visual, auditory, tactile, and olfactory abilities required to assess patients, equipment, and the environment.	Ability to hear alarms, auscultatory sounds, and communicate effectively with others. Visual acuity to read fine print, assess color variations, understand verbal and nonverbal communication. Tactile ability to discern pulsations, temperature, shapes, and other physical characteristics. Ability to detect environmental and patient odors.
Interpersonal Relationships; Emotional Stability	Capacity for development of effective therapeutic relationships. Ability to interact therapeutically with individuals from diverse social, emotional, cultural and intellectual backgrounds.	Establish and maintain rapport with patients/clients, colleagues and others. Ability to remain calm in stressful situations, including emergencies. Adapts rapidly to environmental changes and multiple task demands.

	<p>Ability to work effectively in stressful and changing environments.</p> <p>Ability to accept constructive feedback and to modify behavior accordingly.</p>	<p>Maintains professional behaviors at all times, including stressful situations.</p>
Communication	<p>Effectively and accurately reads, writes, and communicates in English.</p> <p>Accurately elicits, records, and protects patient information.</p> <p>Accurately interprets non-verbal communication, including facial expressions, affect and body language.</p> <p>Demonstrates computer literacy.</p> <p>Communicates professionally and civilly with patients, families, and others.</p>	<p>Gives verbal directions to or follows verbal directions from members of the healthcare team</p> <p>Conveys information to clients and others to teach, direct and counsel individuals in an accurate, effective, sensitive, and timely manner.</p> <p>Recognizes and reports critical patient information to appropriate individuals.</p>
Cognitive Abilities	<p>Ability to use critical thinking and clinical judgment to acquire, interpret, and use information.</p> <p>Able to solve problems involving measurement, calculation, reasoning, analysis and synthesis.</p> <p>Ability to gather data, to develop a plan of action, establish priorities and monitor and evaluate treatment plans and modalities.</p> <p>Ability to react efficiently in an emergency situation.</p>	<p>Calculates appropriate medication dosage given specific patient parameters.</p> <p>Analyze and synthesize data to develop an appropriate plan of care.</p> <p>Collects data, prioritize needs and anticipate reactions.</p> <p>Recognizes and responds appropriately in emergency situations to safeguard the patient and others.</p>
Environment	<p>Recognize the personal and patient risk for exposure to communicable disease and other health hazards.</p> <p>Safely use equipment in laboratory or clinical settings needed to provide patient care.</p> <p>Utilize personal protective equipment.</p>	<p>Takes appropriate precautions for possible exposures such as communicable disease, blood borne pathogens, and latex.</p> <p>Uses personal protective equipment (PPE) as indicated.</p>

5. Pregnancy

Pregnant students may want to take special precautions due to possible exposure to harmful diseases or substances. Students will be expected to meet all program objectives/expectations. Reasonable or alternative accommodations will be provided where it does not fundamentally alter the nature of the course or program. Following pregnancy complication and/or delivery, return to class, laboratory and clinical requires an unrestricted clearance from a licensed health care provider.

6. Insurance: Health and Accident

1. Students are strongly advised and may be required by some clinical facilities to carry their own health and accident insurance. In situations where insurance is required to attend a specific clinical rotation, the student will not be permitted to attend and may have to withdraw from the course. Each student is personally liable for any illness or accident during or outside of school activities.
2. Students participating in a college-related activity have limited coverage by the Student Accident Insurance: <https://business.maricopa.edu/risk-management/insurance/student-insurance-plans>.
3. The cost of this policy is covered in the student activity fee. Student accident insurance coverage is secondary to the student's primary coverage.
4. If a student is injured during clinical, a Maricopa Community Colleges accident insurance form and verification of other insurance coverage must be completed. Claim forms are submitted to the Nursing Director for signature and then forwarded according to campus procedure.

5. Students are responsible for their own transportation and vehicle insurance to and from clinical. No coverage is provided for any motorized vehicle not supervised and provided by the colleges.
6. Maricopa Community Colleges provides malpractice insurance coverage for students enrolled in the Nursing Program as part of the registration fees.

7. Guidelines Regarding Exposure to Infectious Diseases/Body Fluids

1. Standard precautions, which are intended to reduce the risk of pathogen transmission, are the basic level of infection control. Students are expected to follow hand hygiene, personal protective equipment (PPE), respiratory hygiene, and linen and waste disposal guidelines recommended by the World Health Organization Standard precautions in health care:
http://www.who.int/csr/resources/publications/EPR_AM2_E7.pdf
2. All blood and body fluids are considered potentially infectious and are treated as if known to be infectious for HIV, HBV, and other blood-borne pathogens.
3. MaricopaNursing students are not permitted to care for clients with active/suspected tuberculosis, mumps, measles, varicella, or any client in airborne isolation/precautions.

8. Exposure Guidelines

Nursing students who are directly exposed to body fluids must immediately notify the clinical instructor.

Students exposed to body fluids shall follow this protocol:

1. Immediately flood the exposed area with water and clean any wound with soap and water or a skin disinfectant if available; for eye splashes rinse the area with clean water.
2. Report the incident to the clinical instructor.
3. The student should immediately go to an Emergency Department, Employee Health (if available), or Urgent Care to seek triage and treatment. The student will need to provide their personal health insurance information as the student accident insurance provided by MCCCCD is secondary. NOTE: The student accident insurance is for one year from the date of the accident. If the exposure requires follow up treatment longer than one year from the date of accident the student is responsible for all related costs.
4. The clinical instructor and student will notify the agency department supervisor and Nursing Program Director who will in turn inform Risk Management
5. The student and/or the Nursing Program Director will complete an agency site incident report and forward to Risk Management.
6. The student and/or the Nursing Program Director will complete the public safety college student incident report Public Health will forward to Risk Management.

Source: U.S Department of Labor, Occupational Safety & Health Administration. (OSHA). *Bloodborne pathogens and needlestick prevention*. <https://www.osha.gov/SLTC/bloodbornepathogens/index.html>

XI. DRUG SCREENING PROCEDURE

1. Drug Screening Guidelines

All students participating in the Nursing Program will be required to complete a urine drug screen.

1. All students are required to submit to a random urine drug screen as a condition of enrollment in the nursing program.
2. Once students register online, they will receive instructions to go to a lab where they will pay and submit a urine specimen. The student will be informed by the school of the 48 hour window of time they must submit their urine sample at the lab.
3. Private health insurance will not pay for this screening. The lab will provide the student with a receipt. Students should not take a prescription to the lab to be evaluated, but will list prescription drugs they are currently taking.
4. Positive drug screens are referred to the Medical Review Officer's (MRO), who will contact the student. The Nursing Director or designee will receive the result once the review is completed.
5. If a student provides a dilute sample which tests positive, the result is considered positive and pending MRO review, the student will be withdrawn. A negative dilute specimen will require a retest at the student's expense.
6. If a student challenges a positive result, only the original sample can be retested. All positive samples are frozen and retained for one year. The student is responsible for the cost of the retest.
7. Only students receiving negative drug screens can remain enrolled in nursing courses. Reports from the MRO of safety issues/concerns related to the drug profile will require further evaluation. Students may be on temporary exclusion from the program until evaluation is complete.
8. Students testing positive for illegal substances, non-prescribed legal substances, or deemed unsafe for the clinical setting by the MRO will not be permitted to attend nursing courses. Positive drug screen results for students who are licensed or certified by AZBN will be reported to the Board of Nursing.
9. Students will not be allowed to use previous drug screens requested by any person or agency outside of MaricopaNursing.
10. Students failing to test during the designated date and time do not meet the requirement for drug testing and will be withdrawn from all nursing courses.

2. Medical Marijuana Policy

1. Maricopa Community Colleges prohibit the possession and use of marijuana on all campuses and in all off campus student activities, including internships and clinical learning experiences in health programs. This policy is dictated by Arizona Revised Statutes § 15-108 which prohibits any person, including a medical marijuana cardholder, from possessing or using marijuana on the campus of any public university, college, community college or post-secondary education institution. Federal legislation prohibits any institution of higher education that receives federal funding from allowing the possession and use of marijuana. All placements governed by this clinical placement/externship agreement are hereby identified as safety-sensitive positions where the health and safety of the populations served are at issue.
2. Maricopa Community Colleges receive federal funds through grants and financial aid. Maricopa Community Colleges continue to enforce current policies regarding controlled substances and any student or employee who violates university policy prohibiting the use or possession of illegal drugs on campus or in student activities - including educational internships - will be subject to disciplinary action and criminal prosecution.

3. Urine drug screens are required of students prior to attending nursing courses. Medical marijuana, or its metabolite, is not an accepted substance in urine drug screens and will result in a positive urine drug screen. Students with a prescription for medical marijuana would not be considered exempt from urine drug screening.

3. Drug Screening “For Cause” Testing

This policy refers to the use/misuse of, or being under the influence of: alcoholic beverages, illegal drugs or drugs which impair judgment while on duty in any health care facility, school, institution or other work location as a representative of the Nursing Program.

1. When a faculty/clinical instructor perceives the odor of alcohol or marijuana, or observes behaviors such as but not limited to, slurred speech, unsteady gait, or confusion, extreme fatigue or lethargy, and these behaviors cause the faculty or clinical instructor to suspect the student is impaired by alcohol or drugs, the following steps are taken:

- a. The instructor will remove the student from the patient care or assigned work area immediately and notify the lead instructor, college Director or designee.
- b. Upon student’s verbal consent, the instructor will contact a transportation service and arrange for student transport to a designated medical service facility contracted by Maricopa Community Colleges.
- c. The student is to have a picture ID in his/her possession.
- d. After testing, the student may call the transportation service contracted by Maricopa Community Colleges for transport home.
- e. If the student admits to alcohol or drug use, he/she will still require drug screening.
- f. The student is responsible for all costs associated with the for-cause drug-screening test.

2. If the results of the test(s) are negative for alcohol, illegal substances, or non-prescribed legal substances, the student shall meet with the Nursing Director to discuss the circumstances surrounding the behavior.

- a. If the indicator was the odor of alcohol, the student will be mandated to discontinue the use of whatever may have caused the alcohol-like odor before being allowed to return to the clinical setting.
- b. If the indicator was behavioral, consideration must be given to a possible medical condition being responsible for the symptoms. A medical referral for evaluation may be indicated.
- c. Based on the information provided and further medical evaluations if warranted, the Nursing Director will make a decision regarding return to the clinical setting.

3. If the results of the test(s) are positive for alcohol, illegal substances, or for non-prescribed legal substances, the Nursing Director will withdraw the student from all nursing courses. The results of the positive screening test except for alcohol or nicotine will be reported to the State Board of Nursing.

If a student refuses “for Cause” Testing:

- a. The instructor will remove the student from the clinical setting pending investigation.
- b. The instructor will contact the transportation service contracted by Maricopa Community Colleges to request that the student be transported home. If the student refuses transportation, the student should be informed that security/law enforcement may be notified.
- c. Failure to comply with any aspect of this policy will result in withdrawal from the program.

Readmission Guidelines Related to Positive “For Cause” Testing

1. Students seeking readmission who were withdrawn from nursing courses for reasons related to positive “for cause” testing or refusal of “for cause” testing will be required to:

a. Submit a letter requesting readmission to the Nursing Program Director which includes:

- 1) Documentation from a therapist with experience in addiction behaviors indicating status and/or documented rehabilitation related to the alcohol/drug abuse.
- 2) Include documentation of compliance in a treatment program if identified as required by the therapist.
- 3) Repeat a random urine drug screen for alcohol/drugs as instructed prior to readmission and may be subject to random drug screening at the student’s expense during the program of study.

2. If a student, after being re-admitted to the nursing program, has positive results on an alcohol/drug screen, the student will be permanently dismissed from the MaricopaNursing Program and notification will be sent to the State Board of Nursing.

XII. MEDICATION ADMINISTRATION GUIDELINES

Students are expected to function at the level of education and experience according to Block competencies. Students are accountable to demonstrate competencies of previously learned content. All students must review the agency’s medication policies prior to administering medications in the unit.

General Guidelines:

All students are required to:

- follow the principles of safe medication administration
- adhere to the agency’s policies and procedures for medication administration.
- demonstrate competency in calculating medication dosages prior to administering medications. Students unable to calculate accurate doses may receive clinical warning/probation related to unsafe clinical practice.
- report all medication errors to the instructor immediately
- verify with the clinical instructor all medications given to infants and children

In all cases, the instructor reserves the right to limit a student’s medication administration experience. Some clinical agencies may require that students administer medication only under the supervision of their clinical instructor.

Block Related Medication Guidelines:

Block 1: Students may administer medications under the direct supervision of clinical faculty. Once the student has demonstrated consistently safe medication administration procedures, the student *may* receive permission to administer medications under the supervision of staff registered nurses. Either the clinical instructor or the supervising RN must be physically present during the entire medication administration procedure. **Students may not administer medications under the direct supervision of a licensed practical nurse.** Students will not initiate IV access, flush IV ports, nor administer IV medications.

Block 2: Students must have direct clinical faculty supervision in all clinical settings when administering enteral or parenteral medications including PO, IM, SQ, ID, rectal, topical, otic, optic, transdermal, and inhaled medications. Once the student has demonstrated consistent safe and competent medication

administration, the student may receive permission to administer some or all of these medication types under the supervision of staff registered nurses. Students must have direct clinical faculty supervision for all procedures relating to intravenous access including dressing changes, initiating and discontinuing a peripheral IV, flushing IVs with saline, or hanging unmedicated IV solutions. Once the student has demonstrated consistently safe and competent administration procedures related to intravenous access, the student *may* receive permission to perform some or all of these procedures under the supervision of staff registered nurses. Students will not give IV medications, or manage care for PICC lines, central lines or ports. Clinical agencies may require that students only administer medications with their clinical instructor present.

Block 3: Students may administer medications including all methods of intravenous medication administration (IVPB, IVP medications, medicated and unmedicated IV solutions, and saline flushes), via peripheral and central venous access sites, under the direct supervision of clinical faculty. Once the student demonstrates consistently safe and competent medication administration, faculty *may* delegate specific supervisory responsibilities to RN staff. A student may not administer any intravenous medications, or medicated or unmedicated IV solutions, without direct supervision by a registered nurse. Some clinical agencies may require that students only administer medications with their clinical instructor present.

Block 4. Students may administer medications including all methods of intravenous medication administration (IVPB, PPN/TPN solutions, IVP medications, medication IV bags, and saline flushes) under the direct supervision of clinical faculty. Once the student demonstrates consistently safe and competent medication administration, faculty may delegate specific supervisory responsibilities to RN staff. A student may not administer any intravenous medication without direct supervision by a registered nurse. Direct clinical faculty observation is required to administer blood and blood products. Students may independently hang unmedicated IV solutions and administer medications, with the exception of IV medications, with instructor permission after demonstrating consistently safe medication administration procedures.

XIII. GUIDELINES FOR STUDENT CONDUCT

A. Standards of Professional Conduct

The nursing faculty believes that standards of professional conduct are an inherent part of professional socialization and expects students enrolled in the nursing program to adhere to the standards. Students practice within the boundaries of the Arizona State Board Nurse Practice Act, the ANA Code of Ethics for Nurses, the guidelines of the Maricopa Nursing Student Handbook, and the policies and regulations of the healthcare agency where they are assigned for clinical learning (Nursing scope and standards of practice: American Nurses Association Publications, ANA Code of Ethics: <http://www.nursingworld.org/codeofethics>)

Unprofessional behavior including but not limited to, angry outbursts, use of vulgar or obscene language in any educational setting or menacing/threatening behavior will result in disciplinary action up to and including dismissal from the program. Such behavior is inconsistent with professional standards and inappropriate for students aspiring to a career in nursing. The Director, designee, and/or instructor will complete a Student Learning Contract describing the behavior and documenting the actions to be taken.

Standards of Professional Conduct include:

- Confidentiality: Respects the privacy of clients and respects privileged information.
- Accountability: Answerable for actions; answers to self, the client, the profession and the institution.
- Responsibility: Executes duties associated with the nurse's particular role.

- Agency's Policies and Procedures: Reads and adheres to the agency policies and procedures.
- Veracity: Truthfulness; adherence to precision and honesty.
- Punctuality and Promptness: Is on time for all class, lab, and clinical assignments.
- Dependability: Is trustworthy and reliable.
- Respect: Treats others with consideration and courtesy.
- Professional Appearance: Adheres to established dress code in all clinical and professional activities.
- Ethical: Adheres to the Code of Ethics for Nurses with Interpretive Statements (2015) establishing the ethical standard for the nursing profession.
- Legal: Operates within the standards of care related to the student nurse role.
- Safety: Prevents/minimizes risks for physical, psychological, or emotional jeopardy, injury, or damage.
- Civility: All students in the nursing program are expected to contribute to a positive learning environment. Nursing students are expected to be reflective, courteous, respectful, and empathetic to classmates, instructors, and college and clinical staff. Angry outbursts, disruptive behavior, and the use of abusive or derogatory language will not be tolerated and will result in disciplinary action up to removal from the course and/or program.

B. Student Expectation in Reporting Unprofessional Conduct

During the course of study in the nursing program, a student may observe behaviors in others that appear to violate the standards of academic and/or professional integrity or actions that have a potential to harm another individual. Each student has the responsibility to report these behaviors or actions directly to the instructor and/or Director at the college.

C. Professional Boundaries

Students enrolled in a program of study in nursing must learn the importance of establishing and maintaining professional boundaries. In a student role, professional boundaries exist between the student and the instructor and between the student and the client. Students unclear of proper behavior or of an appropriate response to a client should consult the instructor for guidance.

1. Student and Faculty

Faculty and students will maintain a professional relationship:

- a. Students should not expect an instructor to act as personal counselor or therapist. Students should seek assistance from academic advisors and counselors at the college.
- b. Students should not ask or expect the instructor to join an individual, group, or class in any social situations while the course is in progress.
- c. Students should not offer the instructor gifts or money as gratitude for instruction. Instructors may accept cards or notes when students wish to thank the instructor.

2. Student and Clients

Students will maintain a professional nurse-client relationship:

- a. Professional Boundaries “are the spaces between the nurse’s power and the patient’s vulnerability.” Students providing nursing care strive to inspire the confidence of clients. Students must treat all clients, as well as other health care providers, professionally. Clients can expect those providing nursing care to act in their best interests and respect

their dignity. The student should abstain from obtaining personal gain at the client's expense and refrain from inappropriate involvement in the client's personal relationships.

- b. Boundary violations can result when there is confusion between the needs of the student nurse and those of the client. Such violations are characterized by excessive personal disclosure by the student nurse, secrecy or even a reversal of roles. Boundary violations can cause delayed distress for the client, which may not be recognized or felt by the client until harmful consequences occur.

Source: National Council of State Boards of Nursing. (2014). *A nurse's guide to professional boundaries*. [Brochure]. Chicago: Author.

D. Health Insurance Portability and Accountability Act (HIPAA)

All verbal, electronic, and written information relating to patients/clients and contracted agencies is considered confidential and is not to be copied or discussed with anyone. Information may be disclosed only as defined in HIPAA guidelines for educational purposes. A breach of confidentiality will result in disciplinary action, up to and including possible dismissal from the program and/or course.

XIV. DISCIPLINARY ACTION GUIDELINES

When a nursing student is in violation of any requirement contained in this Nursing Student Handbook, he/she is subject to disciplinary action or dismissal. All students should carefully review the Maricopa Community Colleges' Student Handbook section on Academic Misconduct and Disciplinary Standards. Those standards typically can be found in each college's catalog or student handbook. Dismissals and suspensions for reasons based on academic misconduct and student discipline, as well as reasons based on the MaricopaNursing Student Handbook, will proceed according to the Judicial Policies section of the Student Code of Conduct.

A. Zero Tolerance Policy:

The Nursing Program supports a Zero Tolerance Policy for the following behaviors:

1. Intentionally or recklessly causing physical harm to any person on the campus or at a clinical site, or intentionally or recklessly causing reasonable apprehension of such harm.
2. Unauthorized use or possession of any weapon or explosive device on the campus or at a clinical site.
3. Unauthorized use, distribution, or possession for purposes of distribution of any controlled substance or illegal drug on the campus or at a clinical site.
4. Any verbal, non-verbal, and/or written actions which are deemed threatening, abusive, or bullying will not be tolerated and may result in removal from the course and/or program.

Nursing students engaging in misconduct are subject to dismissal from nursing classes and disciplinary action as described in the Student Handbook of the college. The above list of behaviors is not all inclusive.

B. Academic Misconduct:

Cheating or academic misconduct includes cheating on an examination, laboratory work, written work (plagiarism); falsifying, forging or altering college records, or cheating on entrance examinations for the programs. Cheating includes, but is not limited to:

1. Copying from others during an examination.

2. Communicating exam questions and/or answers with another student during or after the completion of an examination.
3. Offering another person's work as one's own (plagiarism). Taking an examination for another student or having someone take an examination for you.
4. Sharing answers for a take-home exam/assignment unless specifically stated by the instructor.
5. Tampering with an examination after it has been corrected, then returning it for more credit.
6. Using unauthorized materials, prepared answers, written notes or information concealed in an exam or elsewhere during an examination.
7. Acquiring, without permission, tests or other academic material belonging to a member of the college faculty or staff.
8. Removing tests from the classroom or duplicating, writing down, or copying questions or answers on any copying, photography or recording device during testing or test review sessions.
9. Any student who knowingly or intentionally helps another student perform any of the above acts of cheating or plagiarism is subject to discipline for academic dishonesty.
10. Plagiarism - includes, but is not limited to, the use of paraphrase or direct quotation of the published or unpublished work of another person without full and clear acknowledgment. It also includes the unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials.
11. Any preparation of written material that is fraudulent and/or untruthful.
12. Sharing logins or passwords to access online platforms.

C. Clinical Misconduct:

1. A student may be dismissed from the program and receive a failing grade in the course based on the inability to place the student in a clinical facility or removal from clinical due to behavioral issues.
2. A student may be dismissed and receive a failing grade in the course for violation of Standards of Professional Conduct.

D. Student Practice Regulations:

Students practice within the boundaries of the Arizona State Board Nurse Practice Act, the ANA Code of Ethics for Nurses, the guidelines of the MaricopaNursing Student Handbook, and the policies and regulations of the healthcare agency where they are assigned for clinical learning.

Examples of unsafe practice include, but are not limited to:

1. Refuses an assignment based on client's race, culture, religious preference or medical diagnoses.
2. Denies, covers-up or does not report own errors in clinical practice.
3. Ignores and/or fails to report unsafe, dishonest or unethical behavior in others to the instructor.
4. Practices skills that have not yet been assigned/taught, or are intended to be checked off prior to independent performance.
5. Demonstrates inability to make appropriate clinical judgments or decisions.
6. Interacts inappropriately with agency staff, co-workers, peers, patients/clients, families, and/or faculty resulting in miscommunication, and/or disruption of the learning and/or patient care environment.
7. Violates principles of confidentiality (HIPAA).
8. Lack of preparation for clinical practice.
9. Fails to respect client rights and dignity.
10. Solicits, borrows, or removes property or money from a client or client's family.

11. Assumes client care tasks for which the student lacks the education or competence to perform.
12. Removes drugs, supplies, equipment, or medical records from the clinical setting.
13. Abandonment: Leaves clinical agency or patient assignment without notification to the clinical instructor and nursing staff on assigned floor.

The nursing programs forbid the practice of invasive skills on any live subject (this would include student to student, student to faculty, student to volunteer, or animals) in any setting outside of the normal clinical/facility setting. This includes labs, simulation, or independent practice time. Invasive procedures include any procedure that penetrates the skin or is inserted into an orifice. Examples would be IV insertion, injections, blood glucose monitoring, insertion of catheters, nasogastric tubes, or the instillation of medications into the eyes, nasal passages, ears, or other areas of the body. This list is not inclusive and the Nursing Director will make the final determination on invasive procedures should questions arise.

Unusual Occurrence Guidelines:

An unusual occurrence is any event that has potential for harm to any person while in the nursing program classes, laboratories, or clinical agencies.

1. Upon notification the faculty and student will meet to determine the nature of the occurrence. The faculty member will determine the necessary actions required for follow-up of the occurrence.
2. A nursing program “Student Learning Contract” must be completed to document any unusual occurrence.
3. Any student failing to notify the instructor immediately upon discovery of an unusual occurrence as defined will be subject to disciplinary actions including course failure and program withdrawal.
4. When a behavior occurs that could jeopardize life, impede recovery, or interfere with the maintenance of the patient’s current health status, a conference will be held as soon as possible with the nursing student, nursing instructor, and the Nursing Director.
5. Any student unable to demonstrate safe and competent patient care, fails to maintain compliance with the health and safety requirements, violates the code of conduct, or has excessive absences from the clinical experience will be removed from the clinical assignment and will receive a failing grade in the course.

XV. SIGNATURE FORMS**(Student Copy)****RECEIPT OF HANDBOOK**

This Handbook prescribes standards of conduct for students enrolled in the Nursing Program. The standards are in addition to those prescribed for students under Maricopa Community Colleges policies and administrative regulations. Violation of any such standard may serve as grounds for program dismissal, suspension, or other discipline.

Every student is expected to know and comply with all current policies, rules, and regulations as printed in the college catalog, class schedule, and the student handbook. Copies are available at many sites throughout the college.

I have received a copy of the Nursing Student Handbook. I understand this Handbook contains information about the guidelines and procedures of the Nursing Program. I also understand that I can find information about the general college policies in the College Catalog and in the College Student Handbook. I can find information specific to each course in the course syllabus.

(Student Copy)

RELEASE OF INFORMATION

I hereby give permission to faculty, staff and administrative officials of the Nursing Program to release to the Arizona State Board of Nursing education records maintained in connection with my participation in the Program, including but not limited to, grades, admission records, transcripts, student formative/summative clinical evaluation tools, student handbook signature acknowledgment forms, health and safety documentation forms, application forms, and any and all records pertaining to discipline, including alleged violations of the provisions of the nursing program student handbook, student discipline code violations, academic misconduct, and all other forms of discipline. The purpose of such disclosure is to provide the records to the Arizona State Board of Nursing in support of that agency's certification, licensure, and disciplinary activities.

I give permission for the nursing faculty and/or the nursing program administration to share my personal information, including name, date of birth, and documentation of the health and safety requirements to clinical agencies requesting this information.

I understand that my personal identifying information may be shared with health care agencies needing this information to enter me in their security system, in their computer system, and/or in their medication administration system.

(Student Copy)**GENERAL EDUCATION COURSE REQUIREMENTS**

The following courses are co-requisites and are strongly recommended to be taken in the sequence indicated in the program of study. In all instances, it is the responsibility of the student to complete all required coursework prior to graduation.

- BIO202 Human Anatomy and Physiology II (recommended prior to Block 2)
- PSY101 Introduction to Psychology (recommended prior to Block 3)
- CRE101 Critical and Evaluative Reading or Exempt (recommended prior to Block 3)
- BIO205 Microbiology (recommended prior to Block 4)

The following general education courses are required for graduation. All courses must be complete by the end of Block 4 and all transcripts must be on file at the college conferring the degree.

- ENG102 (108) First year Composition
- Humanities Verify requirements in the current College Catalogue, Associate in Applied Science (AAS) degree, General Education Distribution Areas, Humanities and Fine Arts

Students must meet the general education course and nursing course requirements for the Associate in Applied Science degree in Nursing. The AAS degree is awarded according to the policies, procedures, and requirements described in the college catalog. The AAS degree must be posted on the student's transcripts before authorization is given to the State Board of Nursing to take the licensing exam.

(Student Copy)

ESSENTIAL INFORMATION FOR NURSING STUDENTS

B. Zero Tolerance Policy:

The Nursing Program supports a Zero Tolerance Policy for the following behaviors:

1. Intentionally or recklessly causing physical harm to any person on the campus or at a clinical site, or intentionally or recklessly causing reasonable apprehension of such harm.
2. Unauthorized use or possession of any weapon or explosive device on the campus or at a clinical site.
3. Unauthorized use, distribution, or possession for purposes of distribution of any controlled substance or illegal drug on the campus or at a clinical site.
4. Bullying and incivility: any verbal, non-verbal, and/or written actions which are deemed threatening, abusive or bullying will not be tolerated.

Nursing students engaging in this misconduct are subject to immediate dismissal from nursing classes and disciplinary action as described in the Student Handbook of the college.

HEALTH DECLARATION: It is essential that nursing students be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. Students who have a chronic illness or condition must be maintained on current treatment and be able to implement direct patient care. The clinical nursing experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application. **All must provide documentation of compliance with all health and safety requirements required to protect patient safety.** Only students in compliance are permitted to enroll in nursing courses. Students will meet these requirements by providing the required documentation for the Health/Safety Requirements Documentation Checklist and the signed Health Declaration Form.

DRUG SCREENING: All students are required to complete the urine drug screening procedure under the program account number, within the specified timeframe, and according to directions given at the time of notification. Only students in compliance with the screening guidelines and receiving a negative drug screen, as reported by the Medical Review Officer (MRO), will be permitted to continue their enrollment in nursing courses.

DUTY TO REPORT: All students enrolled in nursing courses holding or receiving a certificate as a Nursing Assisting and/or license as a Practical Nurse must remain in good standing with the Board of Nursing. Students with certification and/or licensure from allied health regulatory boards are included under this provision. Students receiving any disciplinary actions against their certificate or license must notify the Nursing Director within five (5) school days. The Nursing Director reserves the right to restrict the student's participation in clinical experiences and involvement in patient care until the certificate and/or license is valid and unrestricted and terms of the action are met and the action dismissed.

BACKGROUND CLEARANCES: The Fingerprint Clearance Card must be a Level One and must remain current and valid throughout enrollment in the program. All nursing students must undergo a background check to verify identity, social security number, and to show proof that they do not appear on the List of Excluded Individuals/Entities (LEIE) database. Any student who becomes sanctioned or excluded while enrolled in the program will not be permitted to continue in nursing courses.

An extended Background Check is required for all nursing students who seek to begin MaricopaNursing or other campus healthcare programs on or after September 1, 2011. This is the date new background check standards will be in effect. Additionally, students who have been admitted to a MCCCDCD healthcare program or who are currently enrolled in one as of September 1, 2011 will be required to sign a MCCCDCD Criminal Background Check Disclosure Acknowledgement form. These changes are necessary due to the fact that six of eleven of MCCCDCD's largest clinical experience hospital partners have established stringent background check standards that preclude MCCCDCD from assigning students to those sites who cannot meet those standards. In order for MCCCDCD students to be able to continue to complete clinical experiences at local hospitals, students must meet these new standards. **A student may be dismissed from the program and may receive a failing grade in the course based on the inability to place the student in a clinical facility.**

This Student Handbook prescribes admission and readmission requirements and standards of conduct for students enrolled in MaricopaNursing. The standards are in addition to those detailed under MCCCDCD policies and Administrative regulations. Violation of any such standard may serve as grounds for non-admission to a program or other discipline, program suspension or dismissal. MaricopaNursing programs reserve the right to make program changes as needed, and to change without previous notice any information requirements and regulations published in this document.

Please refer to www.nursing.maricopa.edu for details regarding background check requirements.

WAIVER OF LICENSURE/CERTIFICATION GUARANTEE: Admission or graduation from the Nursing Program does not guarantee obtaining a license to practice nursing. Licensure and subsequent procedures are the exclusive right and responsibility of the State Boards of Nursing. Students must satisfy the requirements of the Nurse Practice Act: Statutes, Rules and Regulations, independently of any college or school requirements for graduation.

Pursuant to A.R.S. § 32-1606(B)(17), an applicant for professional or practical nurse license by examination is not eligible for licensure if the applicant has any felony convictions and has not received an absolute discharge from the sentences for all felony convictions. The absolute discharge must be received five or more years before submitting this application. If you cannot prove that the absolute discharge date is five or more years, the Board cannot consider your application. All nurse applicants for licensure will be fingerprinted to permit the Department of Public Safety to obtain state and federal criminal history information. The Fingerprint Clearance Card required for application to the nursing program will not meet the requirements for certification or licensure through the State Board of Nursing. Effective January 1, 2008 applicants for licensure in Arizona must provide evidence of citizenship or nationality. If there are any questions about eligibility for licensure and the documents required showing eligibility to apply for licensure, contact the Arizona State Board of Nursing <http://www.azbn.gov> or 602-889-5150.

MCCCD HEALTH PROGRAMS

VOLUNTARY ASSUMPTION OF RISK AND RELEASE OF LIABILITY
THIS IS A RELEASE OF LEGAL RIGHTS. READ AND UNDERSTAND IT BEFORE
SIGNING.

Maricopa Community Colleges are non-profit educational institutions. References to Maricopa Community Colleges include its officers, officials, employees, volunteers, students, agents, and assigns. I (print your name) _____, freely choose to participate in the Nursing Program. In consideration of my voluntary participation in this Program, I agree as follows:

RISKS INVOLVED IN PROGRAM: I understand that the clinical training environment for this Program in which I am enrolled through Maricopa Community Colleges contains exposures to risks inherent in activities of the Program such as but not limited to bodily injury, communicable and infectious diseases, and property damage.

HEALTH AND SAFETY: I have been advised to consult with a medical doctor regarding my personal medical needs. I state that there are no health-related reasons or problems that preclude or restrict my participation in this Program. I have obtained the required immunizations. I recognize that Maricopa Community Colleges are not obligated to attend to any of my medical or medication needs, and I assume all risk and responsibility therefore. In case of a medical emergency occurring during my participation in this Program, I authorize in advance the representative of Maricopa Community Colleges to secure whatever treatment is necessary, including the administration of anesthetic and surgery. Maricopa Community Colleges may (but is not obligated to) take any actions it considers to be warranted under the circumstances regarding my health and safety. I agree to pay all expenses relating thereto and release Maricopa Community Colleges from any liability for any actions.

ASSUMPTION OF RISK AND RELEASE OF LIABILITY: Knowing the risks described above, and in voluntary consideration of being permitted to participate in the Program, I hereby knowingly assume all risks inherent in this activity and connected activities. I agree to release, indemnify, and defend Maricopa Community Colleges and their officials, officers, employees, agents, and volunteers from and against any and all claims, of whatsoever kind or nature, which I, the participant, my parents or legal guardian or any other person may have for any losses, damages or injuries arising out of or in connection with my participation in this Program.

SIGNATURE: I indicate that by my signature that I have read the terms and conditions of participation in this Program and agree to abide by them. I have carefully read this Voluntary Assumption of Risk and Release of Liability and acknowledge that I understand it. No representation, statements, or inducements, oral or written, apart from the foregoing written statement, have been made. This Voluntary Assumption of Risk and Release of Liability shall be governed by the laws of the State of Arizona that shall be the forum for any lawsuits filed under or incident to this Form or to the Program. If any portion of this Form is held invalid, the rest of the document shall continue in full force and effect.

MARICOPA COUNTY COMMUNITY COLLEGE DISTRICT
STUDENT CONFIDENTIALITY AGREEMENT

Name (Print): _____ **Status:** Nursing Program Student

The discussions, uses, and disclosures addressed by this agreement mean any written, verbal, or electronic communications.

I understand that I am never to discuss or review any information regarding a patient at a clinical site unless the discussion or review is part of my assignment to the site. I understand that I am obligated to know and adhere to the privacy policies and procedures of the clinical site to which I am assigned. I acknowledge that medical records, accounting information, patient information, and conversations between or among healthcare professionals about patients are confidential under law and this agreement.

I understand that, while in the clinical setting, I may not disclose any information about a patient during the clinical portion of my clinical assignment to anyone other than the medical staff of the clinical site.

I understand that I may not remove any record from the clinical site without the written authorization of the site. Additionally, I understand that, before I use or disclose patient information in a learning experience, classroom, case presentation, class assignment, or research, I must attempt to exclude as much of the following information as possible:

- Names
- Geographical subdivisions smaller than a state
- Dates of birth, admission, discharge, and death
- Telephone numbers
- Fax numbers
- E-mail addresses
- Social security numbers
- Medical record numbers
- Health plan beneficiary numbers
- Account numbers
- Certificate/license numbers
- Vehicle identifiers
- Device identifiers
- Web locators (URLs)
- Internet protocol addresses
- Biometric identifiers
- Full face photographs
- Any other unique identifying number, characteristic, or code
- All ages over 89 year

Additionally, I acknowledge that any patient information, whether or not it excludes some or all of those identifiers, may only be used or disclosed for health care training and educational purposes at MCCCDC, and must otherwise remain confidential.

I understand that I must promptly report any violation of the clinical site's privacy policies and procedures, applicable law, or this confidentiality agreement, by me, or an MCCCDC student or faculty member to the appropriate MCCCDC clinical coordinator or program director.

I understand that, if I violate the privacy policies and procedures of the clinical site, applicable law, or this agreement, I will be subject to disciplinary action that may include dismissal from the program.

By signing this agreement, I certify that I have read and understand its terms, and will comply with them.

Allied Health and Nursing Programs
Maricopa County Community College District
Summary of Criminal Background Check Requirements effective September 1, 2011
Overview of the Requirements

In order for students to be admitted to or maintain enrollment in good standing in Maricopa County Community College District's ("MCCCD") Allied Health and Nursing programs ("Programs") students must provide with their application to a Program all of the following:

- A copy of an Arizona Department of Public Safety Level-One Fingerprint Clearance Card ("Card"). Students are required to pay the cost of applying for the Card. Cards that are NOT Level-One status will not be accepted
- An original version of the "**Criminal Background Check Disclosure Acknowledgement**" form attached to this Summary signed by the student.
- A document from MCCCD's authorized vendor for background checks demonstrating that the student has passed the background check. Students are required to pay the cost of obtaining the background check. Students whose background checks on the date of actual admission to a Program that are more than 6 months old or students who have been in a Program for more than 12 months may be requested to obtain an updated background check. The addition of this criminal background check is due to the fact that some of MCCCD's largest clinical experience partners have established standards that are more stringent than those for obtaining a Card.
- At all times during enrollment in a Program, students must obtain and maintain BOTH a valid Level-One Fingerprint Clearance Card and passing disposition on supplemental background check performed by MCCCD authorized vendor. Admission requirements related to background checks are subject to change as mandated by clinical experience partners

Implementation of the Requirements

1. Students that are denied issuance of a Card may be eligible for a good cause exception through the Arizona Department of Public Safety. It is the student's responsibility to seek that exception directly with the department. Until the student obtains a Card and meets the other requirements for admission, he or she will not be admitted to a Program.
2. Students admitted to a Program whose Card is revoked or suspended must notify the Program Director immediately and the student will be removed from the Program in which they have been admitted or are enrolled. Any refund of funds would be made per MCCCD policy.
3. The **Criminal Background Check Disclosure Acknowledgement** directs students to disclose on the data collection form of the MCCCD authorized background check vendor all of the requested information as well as any information that the background check may discover. Honesty is important as it demonstrates character. Lack of honesty will be the basis for denial of admission or removal from a Program if the information that should have been disclosed but was not would have resulted in denial of admission. Failure to disclose other types of information constitutes a violation of the Student Code of Conduct and may be subject to sanctions under that Code. Students have a duty to update the information requested on the [background check vendor] data collection form promptly during enrollment in a Program. The [background check vendor] data collection form may ask for the following information but the form may change from time to time:
 - Legal Name
 - Maiden Name
 - Other names used
 - Social Security Number
 - Date of Birth
 - Arrests, charges or convictions of any criminal offenses, even if dismissed or expunged, including dates and details.
 - Pending criminal charges that have been filed against you including dates and details. Participation in a first offender, deferred adjudication or pretrial diversion or other probation program or arrangement where judgment or conviction has been withheld.

The authorized MCCCD background check vendor will be asked to pass or fail each student based on the standards of MCCCD's clinical experience partners that have established the most stringent requirements. The sole recourse of any student who fails the background check and believes that failure may have been in error is with the background check vendor and not MCCCD.

**ACKNOWLEDGEMENT OF CRIMINAL BACKGROUND CHECK REQUIREMENTS
APPLICABLE TO STUDENTS SEEKING ADMISSION TO MCCCCD NURSING PROGRAMS**

In applying for admission to a Nursing or Allied Health program (“Program”) at the Maricopa County Community College District, you are required to disclose on the Arizona Department of Public Safety (DPS) form all required information and on the MCCCCD authorized background check vendor data collection form any arrests, convictions, or charges (even if the arrest, conviction or charge has been dismissed or expunged), or participation in first offender, deferred adjudication, pretrial diversion or other probation program on this form. Additionally, you must disclose anything that is likely to be discovered in the MCCCCD supplemental background check that will be conducted on you.

Please complete the DPS form, the MCCCCD authorized background check vendor form and any clinical agency background check form honestly and completely. This means that your answers must be truthful, accurate, and complete. If you know of certain information yet are unsure of whether to disclose it, you must disclose the information, including any arrest or criminal charge. Additionally, By signing this acknowledgement, you acknowledge the following:

1. I understand that I must submit to and pay any costs required to obtain a Level-One Fingerprint Clearance Card and an MCCCCD supplemental criminal background check.
2. I understand that failure to obtain a Level-One Fingerprint Clearance Card will result in a denial of admission to a Program or removal from it if I have been conditionally admitted.
3. I understand that I must submit to and pay any costs required to obtain an MCCCCD supplemental background check.
4. I understand that failure to obtain a “pass” as a result of the MCCCCD supplemental criminal background check will result in a denial of admission to a Program or removal from it if I have been conditionally admitted.
5. I understand if my Level-One Fingerprint Clearance Card is revoked or suspended at any time during the admission process or my enrollment in a Program, I am responsible to notify the Program Director immediately and that I will be removed from the Program.
6. I understand that a clinical agency may require an additional criminal background check to screen for barrier offenses other than those required by MCCCCD, as well as a drug screening. I understand that I am required to pay for any and all criminal background checks and drug screens required by a clinical agency to which I am assigned.
7. I understand that the both the MCCCCD supplemental or the clinical agency background check may include but are not limited to the following:
 - Nationwide Federal Healthcare Fraud and Abuse Databases
 - Social Security Verification
 - Residency History
 - Arizona Statewide Criminal Records
 - Nationwide Criminal Database
 - Nationwide Sexual Offender Registry
 - Homeland Security Search
8. By virtue of the MCCCCD supplemental background check, I understand that I will be disqualified for admission or continued enrollment in a Program based on my criminal offenses, the inability to verify my Social Security number, or my being listed in an exclusionary database of a Federal Agency. The criminal offenses for disqualification may include but are not limited to any or all of the following:
 - Social Security Search-Social Security number does not belong to applicant
 - Any inclusion on any registered sex offender database
 - Any inclusion on any of the Federal exclusion lists or Homeland Security watch list
 - Any conviction of Felony no matter what the age of the conviction
 - Any warrant any state
 - Any misdemeanor conviction for the following-No matter age of crime
 - violent crimes
 - sex crime of any kind including non-consensual sexual crimes and sexual assault
 - murder, attempted murder

- abduction
 - assault
 - robbery
 - arson
 - extortion
 - burglary
 - pandering
 - any crime against minors, children, vulnerable adults including abuse, neglect, exploitation
 - any abuse or neglect
 - any fraud
 - illegal drugs
 - aggravated DUI
 - Any misdemeanor controlled substance conviction within the last 7 years
 - Any other misdemeanor convictions within last 3 years
 - Exceptions: Any misdemeanor traffic (DUI is not considered Traffic)
9. I understand that I must disclose on all background check data collection forms (DPS, MCCCCD background check vendor and a clinical agency background check vendor) all required information including any arrests, convictions, or charges (even if the arrest, conviction or charge has been dismissed or expunged), or participation in first offender, deferred adjudication, pretrial diversion or other probation program. That includes any misdemeanors or felonies in Arizona, any other State, or other jurisdiction. I also understand that I must disclose any other relevant information on the forms. I further understand that non-disclosure of relevant information on the forms that would have resulted in failing the background check will result in denial of admission to or removal from a Program. Finally, I understand that my failure to disclose other types of information of the forms will result in a violation of the Student Code of Conduct and may be subject to sanctions under that Code.
10. I understand that, if a clinical agency to which I have been assigned does not accept me based on my criminal background check it may result in my inability to complete the Program. I also understand that MCCCCD may, within its discretion, disclose to a clinical agency that I have been rejected by another clinical agency. I further understand that MCCCCD has no obligation to place me when the reason for lack of placement is my criminal background check. Since clinical agency assignments are critical requirements for completion of the Program, I acknowledge that my inability to complete required clinical experience due to my criminal background check will result in removal from the Program.
11. I understand the Programs reserve the authority to determine my eligibility to be admitted to the Program or to continue in the Program and admission requirements or background check requirements can change without notice.
12. I understand that I have a duty to immediately report to the Program Director any arrests, convictions, placement on exclusion databases, suspension, removal of my DPS Fingerprint Clearance Card or removal or discipline imposed on any professional license or certificate at any time during my enrollment in a Program.
